trusted-nix-caches

This module sets the `clan.lol` and `nix-community` cache up as a trusted cache.

System

Sets up nix to trust and use the clan cache

Usage

```
1 inventory.instances = {
2   clan-cache = {
3     module = {
4       name = "trusted-nix-caches";
5       input = "clan-core";
6     };
7   roles.default.machines.draper = { };
8 };
9 }
```

Roles

The trusted-nix-caches service has the following roles:

- default

The `default` role has no configuration
